

SACHETS & DIP POTS - SIZE GUIDES

250kgs - width 140mm length 160mm

30g - width 70mm length 110mm

SACHETS

Standard width is always 70mm or the large sachets are 140mm double width (we cannot do anything in between due to our tooling restrictions.) Sachets are therefore made longer to increase their volume capacity (actual sizes shown).

DIP POTS

These are clear and can have either a clear or white heat sealed lid of plain film.

Diameter is always 71mm. For 40g to 50g dip pots the depth is 28mm and for 51g to 70g the depth is 36mm.

40g - 50g fill

28mm deep pot

51 - 70g fill

36mm deep pot
